5RB FIRE MISSION - FIRE SUPPORT

"Hello (C/S), this is...(C/S).. Request Fire Mission. Over"

"READ BACK": To confirm the Fire Mission

"On Target": Shells have hit the target

"Check Fire": Stop Firing

"Cancel Check Fire": Start Firing after cancel

"End Mission": Fire Mission Successful

commander will correct for you. However if you need to correct a mission, use specific details *"top deck, East window"*

5RB FIRE MISSION - CAS

"Hello Zero, this is...C/S.. Requesting CAS"

Warning Order:

"1-2. CAS Mission"

Let JTAC know you are beginning your Request.

A

Observers Position

"I am East 300 meters Marked with Green Smoke"

So the pilot and JTAC know where you are and how to reference you.

B

Target Location

"Target a grid:123456. Reference A001"

Tells JTAC where the Target is and any reference.

C

Target Description

"Target is BMP in the Open Marked with Red Smoke"

What is the target and how is it marked?

D

Hazards

"No AA Seen"

For any threats or hazards to the aircraft

E

Effect

"Destroy"

Do you want to harass, Suppress or Destroy the target

F

When to Engage

When do you want it

Marking types:
Laser: Laser designator
Pointer: Rifle IR Laser
Smoke: Smoke
Flare: Flare IR or coloured
No Mark: Target unmarked

CAS Top Tips:
Have the information you need before calling Zero.
Speak Calm and Clearly
Be prepared to provide a BDA to the JTAC upon request.

Example: "1-3 East 300m of target marked by green smoke. Target is 300m West at GRID: 123456. Target is BMP in the Open marked with Red Smoke on Alpha 0 0 0 1. No

5RB FIRE MISSION - CAS

"Hello Zero, this is...C/S.. Requesting CAS

AA seen, Destroy, Time now, readback Over."

5RB FIRE MISSION - Emergency CAS

"BREAK, BREAK, BREAK Hello Zero, this is...C/S.. Requesting ECAS Over"

A	Target Location	<i>“Target a grid:123456. Reference Box Alpha”</i>
		Where do you need ECAS, is there a map reference
B	Your Position	<i>“I am EAST 200m from target marked with green smoke Danger close”</i>
		Where are you in relation to the target
C	Target Description	<i>“Target is Massed infantry in the open Marked with RED smoke”</i>
		What is the target and how is it marked?
Marking types: Laser: Laser designator Pointer: Rifle IR Laser Smoke: Smoke Flare: Flare IR or coloured No Mark: Target unmarked		ECAS Top Tips: Have the information you need before calling Zero. Zero may hand over control of the craft to you. BPT to switch to 40Mhz. Be prepared to mark both FF and EF positions (not with white smoke)
<i>Example: “1-3 ECAS at GRID 123456. I am 100 meters SOUTH of the target marked with GREEN smoke Danger close.target is massed infantry in the open .”marked with RED Smoke. Readback, Over.”</i>
